Dear Mrs Cooper

On behalf of everyone at Tom's Trust I would like to say a huge thank you to the Friends of Mitcham's Corner for raising a wonderful £3660 for us at the recent Mitcham's Models auction.

As you know, our work is currently based at Addenbrooke's Hospital, Cambridge where we have now fully funded our first Clinical Psychologist who works within a complete Rehabilitation Service dedicated to children with brain tumours, *Brainbow*. This is the UK's first service of this nature and we are now raising funds to increase the Clinical Psychology provision to enhance the work already being undertaken.

Our longer term aims are to replicate the service pioneered here in Cambridge within another UK hospital treating children with brain tumours.

Our work cannot be done without the people who support us and I would like to thank you wholeheartedly for being part of changing this group of children's lives, supporting their families and changing their outcomes.

Please could you pass on our thanks to all of the committee involved in the event, we thought it was a wonderful idea and so well executed! Your kind help and support will ensure that we are able to support more children with brain tumours and help them to reach their full potential. Thank you.

Yours sincerely

Kirsty Keegan
